is the go-to book for anyone who needs to get more out of Photoshop, given its importance to the image-editing industry. ## Understanding Photoshop's Layers You create a picture in Photoshop by using one or more layers. And you can manipulate these layers and move them around as you please. Layers, as you'll soon see, are a digital file's structural hierarchy. The idea is that you can

add and remove layers, reorder them, and manipulate them all as you need. For example, you can begin with the subject layer, work on the background, and then add a layer for a shadow, and then take the shadow layer and move it to the background. You can add a few more layers, such as an iris, to affect the reflections. When the whole picture is complete, you can flatten the image, retaining

all the layers (including the subject, background, shadows, irises, and reflections) as you see fit. Photoshop provides several types of layers. In this book, you'll deal with Layer Styles, selection boxes, and adjustment layers. In the following pages, you'll learn how to create, use, and manipulate layers, including how to add, modify, and delete layers, as well as move and reorder layers.

You'll also learn what you should keep in mind as you work with these concepts.

. He arranged his final stand based on the edge and forced him to use a lot of defensive blocks. Weddle, also a strong blocker, broke for the inside out back to the other end. His nice trip to the end zone was one of the key offensive plays in the victory. He evaded a defender and then made some blocks in the backfield to set

up the touchdown. He also caught a key pass in the fourth quarter, in which he forced a safety. As a whole, the Buffaloes did a nice job of simply outworking the Legion. They were forced to take chances to make big plays and they were able to get big plays on defense. The Lions didn't know what to do against the sideline-to-sideline speed of the wide receivers. Jackson found Hanson for

a 43-yard touchdown pass, and Hanson found Weddle for a 90-yard reception. The defensive front got better against Xavier Thames, with Linebrok, Edwards, Jones, and Perretta making a lot of big stops in run defense, including the final one. They made the Legion earn every yard of their 1,000. Now, they have the task of adding a second loss to the record of the 2015 season. They

need to travel to Cary, North Carolina, to play in the New Era Pinstripe Bowl on Dec. 30. It will be the first time these two teams have met since the 2015 season, the year the Buffaloes won a national title at New York's MetLife Stadium.
