play accordingly. You're better than your opponents. Get into their spaces and execute your passing moves. When you run with the ball you'll be surrounded. The more touches you have the more options you're likely to use. It's time to get creative and get the best of your opponent. And there's only one way to do that. Are there different types of moves? Moves come in three main flavors. Touch passes are the most subtle. Sets are more dynamic than touch passes. And dribbles are like no other. You're surrounded. And once you go, you're not coming back. Try them all. You'll find your own personal touch. Get creative with your play style. When you're set up a move, you can pull off a variety of different looks. And you'll even change the way your opponent reacts. It's time to get good at your moves and use them all to become the ultimate football star. Do I need a Pro Move? You need a Pro Move to unlock all of the FIFA Moves. The Pro Move is the skill required to take full advantage of the game's in-depth gameplay. After all, with a simple touch pass, you can change the way the game unfolds. You'll also be able to create all sorts of passing options with a full set. And by making a pass that leads to a dribble, you can change the entire pace of the game. Once you'd mastered the basics, it's time to get serious. Get ready to bc9d6d6daa
