A source of the residual errors in the sea-level rise ror cards bhandarkar publications pdf download A sea-level rise of up to 60 cm by 2100 is predicted by the coupled model. Since then, AR5 has adopted a more conservative ror cards bhandarkar publications pdf download sea-level rise projection of 30 cm by 2100 to account for that uncertainty. AR5 was not able to capture the hiatus in the rate of sea ror cards bhandarkar publications pdf download rise since 2005, but it was aware that it could affect projected sea-level rise. AR5 concluded that based on the model results, ror cards bhandarkar publications pdf download sea-level rise could be 3 meters or 5 meters higher by 2100. It also noted that the rising rate of sea-level could be sensitive to ror cards bhandarkar publications pdf download the ocean circulation and that these conditions were uncertain. As a result of this report, many countries are now revisiting their sea-level rise ror cards bhandarkar publications pdf download assessment.
