

Reactable Mobile APK

. More than 6000000 subscribers: Subscribe for free and get instant access to your music! Reactable: What is it? 1. Reactable brings the full creative power of the internationally awarded interactive Reactable instrument used by renowned musicians like Björk . 2. The power of Reactable is available in your pocket - a full-featured keyboard with no computer required. 3. Got new ideas? Reach out and help shape the future of Reactable today! Created by Reactable Systems Ltd, the Reactable mobile App is the perfect mobile companion for the online Reactable experience, built for Android and iOS. Reactable mobile is not an app, it's a keyboard and more. The full-featured keyboard, used by many musicians and bands to compose, record, edit, and share their music online, is now available in your pocket. Reactable mobile is available for Android and iOS. Reactable for Android is available free of charge, with in-app purchases available to unlock additional features. How to get started: The Reactable mobile app allows users to connect to their existing accounts, and be mobile when they compose and perform. In about 30 seconds, you can start composing music. Features: • Set your desired track, album or artist. • Type a short chord and play. • Type in chords using auto-completion. • Change the scale or instrument using auto-completion. • Choose the beat position • Change the key • Use the built in editor to change your notes, labels, and effects. • Access to more features by unlocking in-app purchase. • Add notes and chords on the same row - easy and fast. • Volume, pan, mute and other options are only available on the keys. • Save your songs to your heart's content. • Share your new compositions using social media. • Import music or audio files as chord or MIDI. • Listen to your recorded songs with visualizations. • Offline notes can be accessed from any device. • Stored chords and notes can be loaded quickly. • Complete song can be loaded in song editor. • Save your music with smart playlists. . How to use: • On Android devices - Connect to your account via the app. • On iOS devices - Create a new account. • Access the editor using the keyboard. • Type in chords
